## About Coffee:

Drummers come into my store nearly every day. They want me to try some new brand of coffee. I say to them: "No sir, I sell Blanke's coffee only. I don't want new kinds. I know Blanke's coffee is good. I don't know whether your kind is good or not. When I find a good article I stick to it. Good day, sir."

## Careful Buyers:

The careful buyer is the person who won't pay money for anything unless it's good, and who won't pay more than it's worth. I'm a careful buyer myself. I'm so particular in buying stocks for my grocery that I can sell the best brands of everything for about the same price as most grocers ask for poor goods. I like to have people come and see my groceries, because they nearly always buy.

## Other Things:

I don't like to waste words. I'll just say for short, that my grocery is the best in town. That means I keep a big stock, a clean store, and only want a little profit. Do not forget Blanke's coffee, and don't forget my store.

Mr. Robertson Moore, of Glasgow, is on a visit to Keytesville relatives this week. He is in his 83d year and moves about as lively as many persons who are 30 years his junior. For many years he has been identified with the people of Chariton county in all her material interests. He still owns a valuable farm in this county above Glasgow. Many years since he represented Chariton county in the legislature and was afterward sheriff for four years. He is still strong in the Democratic faith, and has never taken up with side issues, or served false political gods.
